UMassAmherst

Cartographic Basics

Goals of Cartography

- Communicate geographical information graphically
- Maximize both:
 - Information presented
 - Ease of understanding

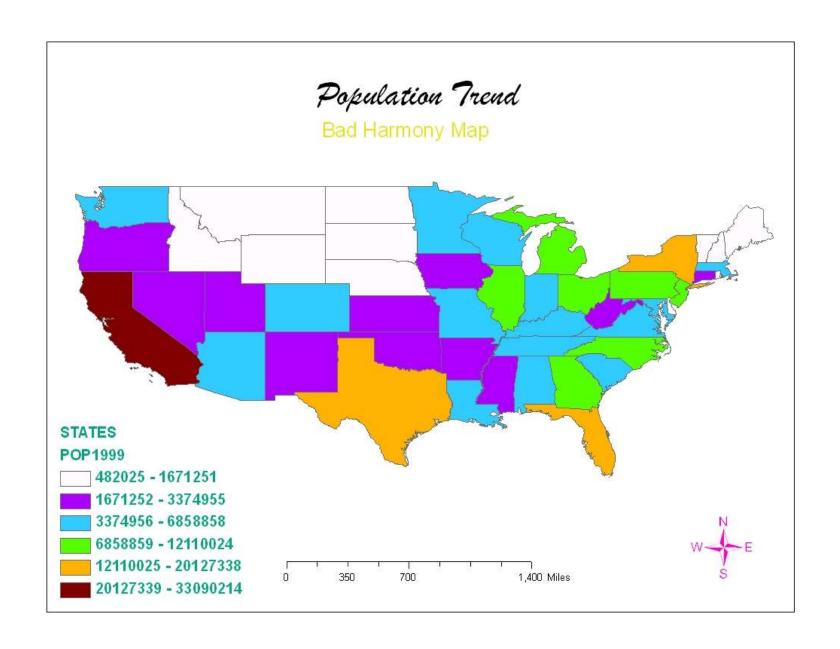

Map Design

Harmony:

Color, texture

Composition:

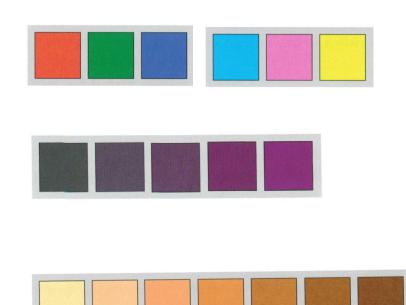

Clarity:

Harmony: Color Choices

HSV

- Hue
- Saturation
 - aka 'vividness'
- Value
 - aka Light/Dark

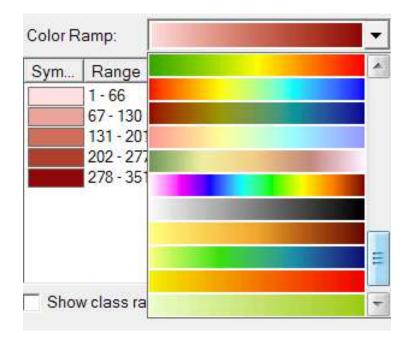

Harmony: Color Choices

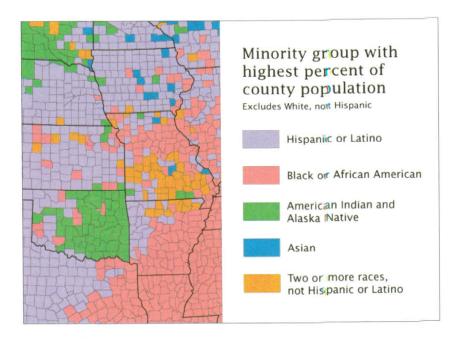

HSV

ArcMap Symbology Tab:

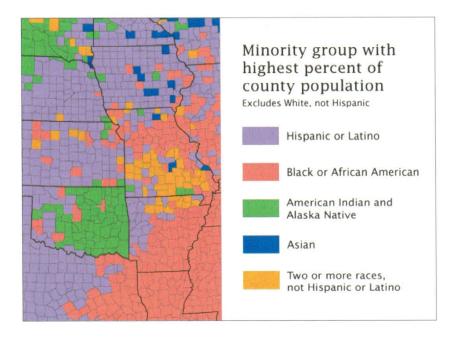

- Hue
- Saturation
 - aka 'vividness'
- Value
 - aka Light/Dark

Harmony: Color for emphasis

Constant lightness & saturation

Symbology for:

"Asian" is darker

"Two or more races" is more saturated

Map Design

Harmony:

Color, texture

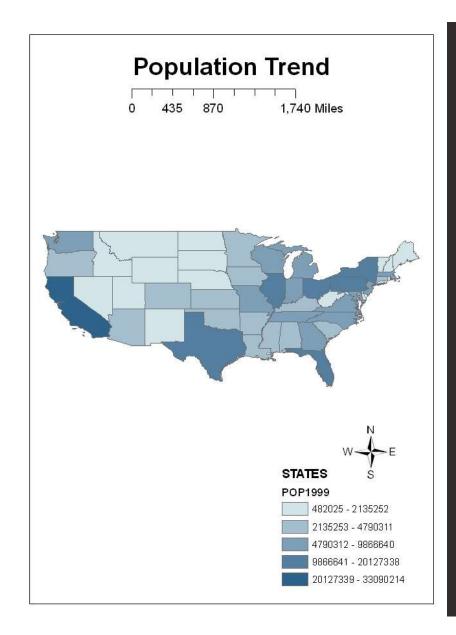

Composition:

Objects/layers on your map

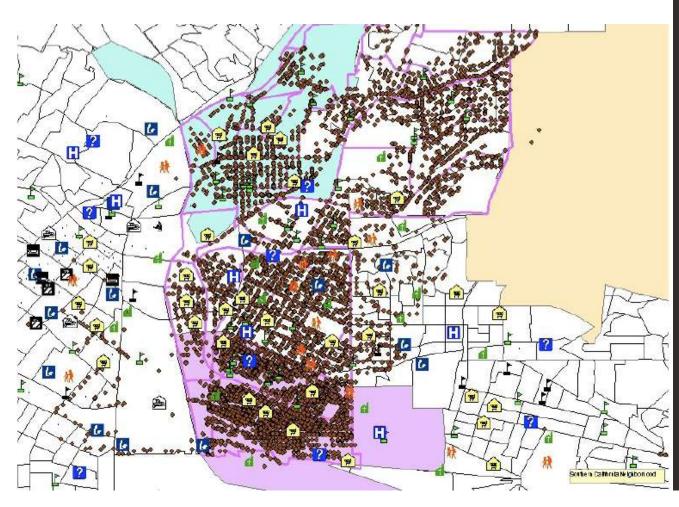

Clarity:

Composition:

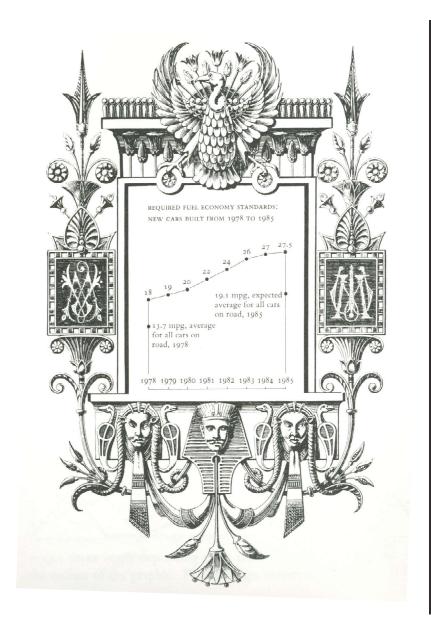

Avoid Excess White Space

Composition: Reduce Complexity

Composition: Reduce Distractions

Map Design

Harmony:

Color, texture

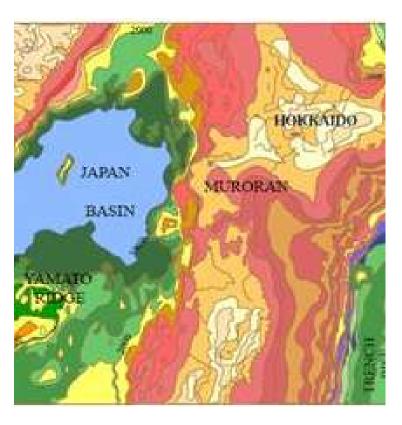

Composition:

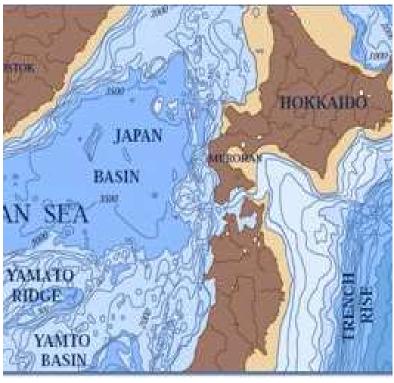

Objects/layers on your map

Clarity:

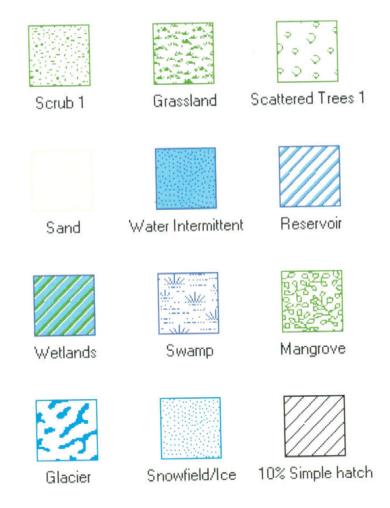

• Intuition, ease of reading

Clarity: Choose Intuitive Color Schemes

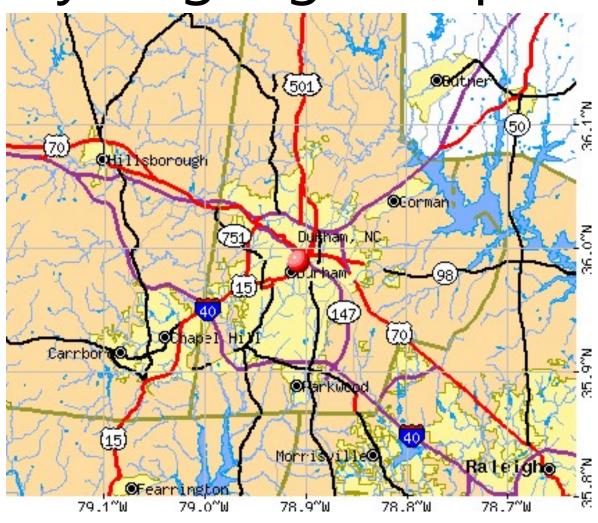

Clarity: Use Intuitive Patterns

Clarity: Highlight Importance

Clarity: Font Choices

- Serif (e.g., Times New Roman)
 - The quick brown fox jumped over the lazy dogs
- Sans-serif (e.g., Arial, Calibri)
 - The quick brown fox jumped over the lazy dogs
- Display (e.g., Impact, Forte)
 - The quick brown fox jumped over the lazy dogs

Clarity: Font Choices II

- Never Use This (Comic Sans)
 - The quick brown fox jumped over the lazy dogs
- Some stuff isn't readable (Old English)
 - The quick brown fox jumped over the lazy dogs
- Forrest prefers Sylfaen
